Philanthropy Brings Happiness

By Jeffrey M. Verdon, Partner, Falcon Rappoport & Berkman

Jeffrey M. Verdon
ATTORNEY AT LAW

Generosity and philanthropy create happiness according to Harvard professor, Michael Norton. In his TedX Talk, “How to Buy Happiness”, Dr. Norton expands on the research which supports the notion that spending money on others makes people happier than spending it on themselves. But there are a variety of best practices to do so in philanthropy.

These days, a Donor Advised Fund (DAF) has become one of the simplest and most efficient ways for affluent individuals to participate in those positive feelings that come from philanthropy. DAFs have advantages over Private Foundations (PF).

A DAF is easy and low cost to create and then “plugs into” the sponsoring organization, generally a public charity qualified under IRC Sec. 501(c)(3). Under the rules of the DAF, the board of directors must include members of the supporting organization to provide oversight. However, the founder of the DAF may control the decisions regarding operations and donations.

With the PF, the founder has full control over the operations and donations but is subject to more heavily regulated guidelines. A PF must file an IRS Form 990-PF every year and comply with state annual organizational filing requirements, which includes a list of assets, contributors, and grantees. With a DAF, there are no state or federal annual filing requirements, and donors can retain their anonymity.

The rules require the PF to make an annual distribution of at least 5% of the previous year’s net assets. There is no minimum distribution required of DAFs.

Just about any type of asset class may be contributed to the PF and the DAF, such as cash and cash equivalents, publicly traded securities, and mutual funds. Non-liquid assets like art, antiques, and real property are generally not allowed to be received by the DAF. While any type of asset can be liquidated before deposit into a DAF, this may incur fees and taxable gains.

Both PF and DAF contributions escape estate and gift tax as both are exempt as charitable donations. There are income tax differences though. The income tax deduction limit for securities held for more than 12 months to a PF, for cash gifts is 30%, and to a DAF, it’s 30%, with the same respective limits on other kinds of donated property. The total annual contribution limit to a PF is 30% of a donor’s adjusted gross income (AGI), while it is 60%, for cash gifts, for a DAF. If the charitable

deductions exceed these annual limits, the deductions may be carried over for 5 years.

Affluent families and successful business owners are increasingly becoming “happier” by getting more involved with philanthropy. The DAF is the more favored medium due to the requirement that donations do not have to be made annually, there is flexibility and low cost in formation and operations, and the donor can remain private.

Celebrating 20 Years

Inspiring Leaders to Perform Best Ethical Practices

F&M Bank, founder and seed sponsor for The Orange Catholic Foundation's Conference on Business & Ethics, has remained a presenting partner for all twenty years.

Through those years, our partnership has provided a forum that inspires leaders and motivates them to grow in their professional lives.

This much-anticipated annual event highlights professional ethics in the workplace. Sought-after by hundreds of faith-filled influential business, religious, academic, and philanthropic leaders, this gathering fosters the common goal of ethical best practices in daily life, both personally and professionally.

The Farmers & Merchants Bank Lifetime Achievement Award honors an individual, couple, or organization who has made a significant contribution to the community within the Diocese of Orange, often positively affecting communities beyond the scope of the diocese.

We are honored to be a long-term partner of The Orange Catholic Foundation, celebrating influential business leaders for using their faith as the guiding principle in the day-to-day operation of their businesses.

The 2023 GIVING GUIDE

Dear Readers,

Over 75 nonprofits are featured in the 2023 Giving Guide. I am in awe of the nonprofit community in Orange County and am so proud to witness it all come together for my first year in this role.

Thank you to all the underwriters that helped make it possible for so many nonprofits to participate this year.

Thank you to our publication sponsors- Association of Fundraising Professionals (AFP), Beyond Blindness, California State University Fullerton, Chapman University, Farmers & Merchants Bank, Lugano Diamonds, Melissa, The Wooden Floor, and University of California, Irvine.

A huge thanks to our amazing OC Business Journal team: Jami Derby for editing the content and Rich Loyd, Albert Ornelas and Sonia Chung for graphic design.

The Giving Guide is certainly the biggest special edition that we produce all year and it is amazing to see it come together. It is such a valuable resource for the community and I cannot wait to see it grow. Special thank you to Amy Sfreddo for all of her guidance and help to bridge the gap for me and our partners.

I am proud to be a part of such a giving community. I welcome the opportunity to talk further with any of you on ways to support our nonprofit friends so they can continue to serve those in need in Orange County and beyond.

The 2023 GIVING GUIDE

What inspires you to give?

Our family is dedicated to supporting arts, education, and civic engagement. We are fortunate to live and work in a community like Orange County and we believe it is our duty to do what we can to ensure that OC continues to be the gem that it is. Additionally, within our business Revitate, one of our key pillars is positive social impact, which we measure with data and metrics. When we decide to serve on a nonprofit board or contribute to an organization, we evaluate the opportunity to determine if our gift of time and/or money will make a significant social impact to the nonprofit.

Summarize a personal experience you've had working with a nonprofit organization that has had the greatest impact on you.

Marta: Raj and I have been involved with Segerstrom Center for the Arts since its inception. I have served on its Board for over 12 years, and have been past Chair of the Center Fund, Executive Committee, and former President of Angels of the Arts, the Center's largest support group. But, my favorite and most impactful experiences have been Chairing Candlelight Concert which supports educational arts programming for children in Orange County. I chaired once with Raj, once with Lisa, and once with Liz Meringe years before Lisa met Richard!

Raj: When I joined the Board of Trustees at Chapman University over 10 years ago, it was a smaller local university. With Jim Doti's vision, I am proud to be part of growing Chapman into a top university attracting students from all over the world.

Lisa: When Anton Segerstrom encouraged me to join the Board of the Orange County Museum of Art, I bought into a vision, but seeing it come to life this past Fall was an entirely other story. I am so proud to be part of OCMA, having Co-Chaired the opening gala with Anton's wife Jennifer, and now currently serving as Vice Chair of the Board. With free admission, our museum is accessible to all and has had over 100,000 visitors in the first 100 days.

Alex: Being a founding Board Member of Gen Next (now named Alder) and supporter of its Foundation, I have enjoyed being part of the work that the organization does on issues such as education reform, economic growth and global security to help ensure that the American dream will be alive and well for future generations.

What inspires you to give?

It all started 12 years ago. We began hosting and underwriting annual charity events after that and now our end of summer, backyard BBQ parties continue to benefit children in need. The gift of giving was important to us, we want to make a difference in the lives of these victims, women and children. We feel empowered to support, love and protect as we closely monitored the results from each event. With each year, our events attracted more and more donors, sponsors, and guests. Each event starts with a budget as we underwrite all of them, paying close attention to each detail of the contracts and the run of show. Our goal is to reach the hearts of our community (and beyond) and educate everyone on the horrible and tragic events happening to these beautiful victims. Our inspiration comes from knowing and seeing we are saving one life at a time and, like a ripple effect, hundreds more.

Summarize a personal experience you've had working with a nonprofit organization that had the greatest impact on you.

In 2018 we noticed Lauri Burns, founder of the Teen Project and Vera's Sanctuary, purchased the five Boys Town homes located in Trabuco Canyon. She was gifted a million dollars specifically to purchase the property. We reached out to her and asked if she would meet with us to discuss her journey and vision for supporting victims of trafficking. We thoughtfully told Lauri that we had an idea about how to provide for her and The Teen Project/Vera's Sanctuary. She accepted and it's been magical ever since. We are blessed to be a part of Lauri's journey and vision in saving girls from trafficking. We are so thankful that we are able to provide such support and have such giving and resourceful donors and sponsors each year. It is those people who truly make each event lifechanging.

What inspires you to give?

Heather and I are inspired to give because it's the right thing to do – for good reasons, too many to list. We've focused our giving in three areas – education, healthcare and spiritual, as these all make a difference in the quality of life for everyone. Children are just beginning life's journey. Both good health and a good education are vital to a child's success. Life is about making the most of opportunities presented to you. Picture each opportunity as a door and education is what opens those doors while good health allows you to walk through them. The more you make of your education, the more doors are opened. The goal should be to keep as many doors and options open as possible – while keeping healthy to walk through them.

Summarize a personal experience you've had working with a nonprofit organization that had the greatest impact on you.

Heather: I've had the honor of being associated with CHOC for over 20 years, starting as a volunteer in the oncology playroom. I met so many amazing children over the years, but there are a few you will never forget. One little four-year-old boy had spent over half his life at CHOC battling cancer. When able, he'd come to the playroom, but if he couldn't, we'd go to him with toys and books. Eventually I became part of the CHOC Foundation Board and didn't have the time to volunteer and lost track of him. Several years later, a woman and teenage boy approached me while out. It was that same little boy from CHOC, and he was attending school, playing sports, and living life to the fullest. It was truly a gift to see him thriving. This reinforces the need to help CHOC achieve its mission of providing high quality healthcare - regardless of a family's ability to pay.

Jim: I've been honored to be involved with St. Michael's Abbey in Silverado. Though the newly constructed Abbey is physically impressive and architecturally beautiful, the work being done by the priests is truly spectacular – including turning around failed schools and assisting numerous organizations throughout Orange County and Southern California.

What inspires you?

I'm inspired by people. I'm fortunate to be surrounded by those who are passionate about helping others. I'm privileged to know people that, regardless of the adversity they face, create a new normal and focus on making a difference. My husband's strength, leadership, perseverance, and indomitable spirit set examples for all of us to live the rest of our lives.

Summarize a Personal Experience with a nonprofit org that has had the greatest impact on you.

We started Augie's Quest to Cure ALS shortly after my husband was diagnosed with this disease. For the past 18 years, I have so many memories from this journey that that greatly impacted both our lives. The memories that drive me to continue this Quest are all based around how our friends, and even strangers, rallied with us to change the landscape of the disease. Seeing our hard work and fundraising dollars pay off with real results is what has had the strongest impact on me: a call from a scientist truly excited to share the positive topline results from a Phase 2 trial, a conversation with a newly diagnosed patient that shared they have hope after joining our Quest, or seeing the joy my husband experienced seeing his vision become reality. I won't stop until we have a cure.

CELEBRATING TWENTY YEARS of HOPE

Nancy and Jeff Stack

Invite you to join us in April for our month-long online fundraiser to celebrate 20 years of funding groundbreaking research and hope! Your dedication to Natalie's wish has united us in our fight against cystinosis, bringing us closer than ever to a cure!

Dear Family and Friends,

It has been 31 years since I was diagnosed with cystinosis and 20 years since my parents, Nancy and Jeff Stack started the Cystinosis Research Foundation. For me, everything started with a wish. My wish "to have my disease go away forever" was the inspiration and driving force that motivated my parents to establish the Cystinosis Research Foundation with the mission to find a cure for my disease - a disease that affects all people regardless of age, race, gender, or social status.

When I made the wish so many years ago, I could never have imagined the impact it would have on our community. My wish has resonated with others and has given hope to adults and children with cystinosis and their families. We have made progress, but we have more to do!

With love and gratitude,
Natalie

Over the past several years, we have been on a journey to examine who we are, and dream of who we want to become. It has led us to this exciting moment, where our new name and brand identity captures the voices of survivors and represents the communities we hope to create

Honoring Our Roots

A concept that started from witnessing women and children seeking refuge by sleeping in their cars in parking lots, in 1976 WTLC started as the first domestic violence shelter in Orange County and the third in the nation.

Embracing Our Evolution

We are no longer a six-bed shelter that serves only women and children, we have grown to now have seventy-beds and provide comprehensive services. We have learned from those we serve and are the reflection of their stories and voices.

Calling Out Our Name

Our initial mission launched WTLC and our forty-seven year journey has brought us to this moment. We are not becoming a different agency, like the survivors we serve, we are just reclaiming who we have always been.

WE ARE RADIANT FUTURES!

OUR MISSION:
To be a relentless force for a world of longer, healthier lives.

We stand together to advance cardiovascular health for all

The American Heart Association believes that everyone deserves to live longer, healthier lives so they can enjoy more of life's precious moments. We are fighting Southern California's No. 1 and No. 5 killers— heart disease and stroke—by building a foundation of health in every neighborhood to make healthy choices easy and accessible for all, regardless of where they live.

That's what health equity is all about. We've made impressive progress, with more on the way, across all our endeavors: research, advocacy, education, community impact, access to health care and more.

Progress this year includes funding innovative research with the greatest promise to improve health, find cures, and save lives. Through community initiatives like Libraries with Heart, Indian Health and San Bernadino Self Measured Blood Pressure Programs, work with local food banks, and school districts, we bring health and wellness resources and foster positive change in communities of need.

Being the first in the West Coast to debut Hands-Only CPR training kiosks at John Wayne International Airport, gives travelers the opportunity to learn how to save lives. We continue to drive adoption of smoke-free policies in workplaces, universities, churches, hospitals, private apartment complexes, and other locations. And advocate for regulatory initiatives that ban youth-focused marketing efforts in our communities that have helped curb smoking's appeal to young people.

We create best practices and work with health care providers to better care for heart disease and stroke patients. And we drive lasting change by championing policies that protect public health and address socioeconomic barriers to health.

WHO YOU KNOW IS LESS IMPORTANT THAN WHO KNOWS YOU.

Our social networks influence where we go to school, how we present ourselves, what we value, and open doors to career opportunities.

Yet, for many low-income and underrepresented communities in Orange County, access to a strong professional network is extremely limited. Thousands of tomorrow's innovators, leaders, and change-makers are going unseen and unknown.

Big Brothers Big Sisters is committed to changing the paradigm by becoming THE strategic mentoring partner for workforce development in Orange County. We bring together high-school and college students with industry leaders – mentors – who provide **the social capital they need to experience social and economic mobility.**

The end result is a more diverse, more equitable, and more engaged Orange County workforce.

FUNDRAISING EVENTS

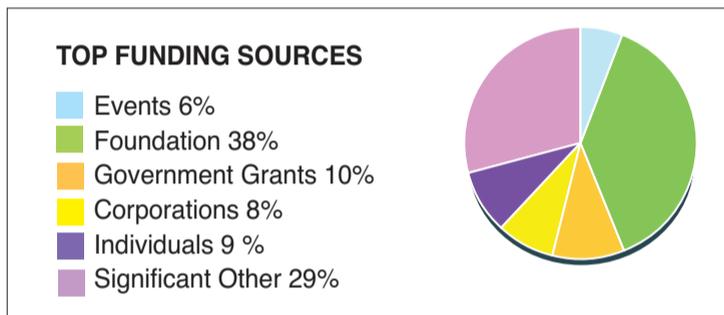

Our major fundraising events this year include the Champions Golf Tournament on Thursday, May 11 at Strawberry Farms Golf Club; Annual Leadership Breakfast on Thursday, June 8 at Irvine Marriott and our Be Great Gala on Saturday, October 7 at VEA Newport Beach.

Additionally, we run an annual Back-to-School Drive from June through August to ensure that our Club kids have the essential tools they need to successfully start the new school year. We also host an annual Holiday Toy Drive in November and December to collect new, unused toys, which we distribute to Club kids at our Winter Wonderland events.

VOLUNTEER & GIVING OPPORTUNITIES

We offer a variety of opportunities for individual, group, and corporate supporters to get involved at our Clubs. Through our Mentor Days, groups of 5-20 volunteers can directly interact with Club kids, experience our programs first-hand, and witness the impact their time and talent make. Volunteers are also needed to support our weekly food distributions that serve over 200 families who are food insecure in our communities.

We like to begin with a discussion about our programs and services to help find experiences that might be meaningful for you or your organization through our Corporate Sponsorship packages. Call us to explore opportunities today!

(Left to Right) Patrick Finnegan, Senior V.P. of Operations at Disneyland Resort, Joecelyn Soria, Club Member, and Anne Hertz-Mallari, CEO of the Boys & Girls Clubs of Greater Anaheim-Cypress

Boys & Girls Clubs of Greater Anaheim-Cypress provides caring guidance and support to thousands of kids and teens, in order to help them grow into confident, capable adults. Young people have positive adult mentors in staff and volunteers who notice their strengths, listen to their concerns, and open up doors of possibility. When young people have exposure to inspiring ideas and incredible opportunities, as well as the tools to build their confidence, they can take on anything.

Our 18 Clubhouses serve some of the most vulnerable youth in our communities. Our members are provided a safe place to belong, caring mentors to guide them, and research-based programs to help them succeed in school, lead healthy lives, and demonstrate good character and leadership. Our academic support, hands-on science programs, service clubs, cooking classes, college readiness, and workforce development programs help our young people to graduate high school with a plan for their future.

We help families overcome food insecurity, unstable housing, and the financial, physical, mental, and emotional challenges they face.

We know we are not alone in supporting families in need.

Would you like to join key community leaders to help local children, teens, and families?

Every dollar you invest returns nearly \$10 to the community.

Nurturing children. Supporting families. Empowering communities.

Nobody builds well-being alone. And even strong families need strong support systems.

That's why for over a century, Children's Bureau of Southern California has been strengthening at-risk families and communities so that children can thrive, free from maltreatment and other forms of adversity. Our programs provide families with the resources necessary to ensure stable relationships, physical and emotional health, and economic security.

We can't do this alone and invite you to partner with us in building hope.

MISSION

CASA provides a powerful voice and a meaningful connection for children who have experienced abuse, neglect, and abandonment.

Court Appointed Special Advocates (CASAs) are trained, dedicated, ordinary citizens with **extraordinary hearts.**

CASA volunteers advocate for children, developing a one-on-one relationship with them through outings, quality time, and most importantly, **listening.**

This commitment enables our advocates to interact with all professionals involved in the child's case and make recommendations directly to the court, ensuring the child's best interests are heard. Unlike social workers, therapists, and attorneys who juggle large caseloads, CASAs work with one child at a time and can quickly become a critically important person in the child's life.

BE A VOICE OF HOPE

You are not a foster parent or caretaker, you are a powerful voice making a real difference at a critical turning point in the child's life. There are over 3,530 youth in the Orange County child welfare system and 268 waiting for a CASA volunteer. Change a child's story, become a CASA.

Cristo Rey Orange County employs an innovative Corporate Work Study Program that provides students with real world work experiences. Momentum is on our side. **With you, a cure is within reach.**

Duchenne muscular dystrophy is 100% fatal. But it doesn't have to be.

Twenty years ago, our goal was to get research out of the labs and into clinical trials — and we've done just that. Now, we're focused on helping accelerate the approval of transformative treatments and identifying new therapeutic approaches that will foster the first generation of long-term Duchenne survivors.

Join CureDuchenne to find and fund a cure for Duchenne muscular dystrophy **and create a legacy today!**

Devil Pups females fill the ranks yearly with motivation and a desire to be successful

For 69 years we've been building the Leaders of Tomorrow

Located in Southern California this youth development program continues to strive with high energy and success.

Program credentials:

- The program started in 1954
- Operates on Camp Pendleton
- Just 10 days in July
- 350 boys & girls (14 to 17)
- All teenagers come for FREE
- Assisted by the Marine Corps
- Run by former Marines

*Growth through
Challenge*

"Many teenagers are not involved in team sports through high school. Teamwork, working and helping others is a big part of Marine Corps Values."

"Devil Pups are awarded for accomplishment at the end the program. Base Command assist with awards as hundreds of families and friends look on."

"The famous Camp Pendleton mud-run course is one of the challenges of the program where all Devil Pups test their grit and stamina."

10 DAYS IS ALL WE NEED FOR A LIFE CHANGING ADVENTURE

WE ARE TEACHING

- SELF CONFIDENCE
- PERSONAL PRIDE
- SELF-DISCIPLINE
- MOTIVATION
- LEADERSHIP
- HONOR & INTEGRITY
- TEAMWORK
- PATRIOTISM

RESPECT FOR OUR COUNTRY, ITS WARRIORS AND ITS FLAG

Hosted by Devil Pups, Inc. each Devil Pup is given a uniform and moves into an actual barracks where they will reside for 10 days. Devil Pups are dressed and groomed alike for their stay on the base. Up early at dawn with the Marines to salute the flag as it goes up, then off to a week of classes, physical fitness, marching and facing the demanding challenges of this well designed program - it is an adventure.

Thousands of Devil Pups have benefitted and gone out in the world to make their mark: A Heisman Trophy winner, NFL Athletes, Doctors and Lawyers, Congressman, Movie Stars, Pilots and many Police and Fire first responders. All started and graduated as Devil Pups.

What's so different about our program: "Quitting" is discouraged, no one says; "I can't", fear is faced. All electronics are left at home encouraging only face to face communication.

Hope Builders

GOALS FOR 2023

Hope Builders believes that access to opportunity makes a difference and is laser-focused on moving young people from poverty to prosperity. EACH PERSON'S JOURNEY TO HEALING IS UNIQUE

The effects of relationship violence can be far-reaching, often opening the door to a myriad of mental health issues. Those issues affect many aspects of our daily lives, like work, how we care for ourselves, and engage with others. In fact, relationship violence costs employers nearly \$727 million in lost productivity each year.

According to the National Institutes of Health, research has shown that individuals who have experienced relationship violence are far more likely to have lower work performance and productivity as a result of the impact of trauma as compared to the general population.

**RESTORE
HOPE**
with a wish

Meet Wish Kid Giselle

While Giselle received treatment for her kidney transplant, she had to be separated from her sister which was very hard for both of them. During recovery, Giselle found comfort in her favorite Disney movies and wished to go to Disney World with her family!

Thanks to our supporters like you, Giselle's magical wish trip was a much-needed break from treatment filled with giggles and family time. Her trip gave her the ability to gain hope for a future with less hospital stays and more sister bonding time. **Hope is essential – you have the power to create it for children in Orange, Riverside, and San Bernardino Counties.**

Together, we create life-changing wishes for children with critical illnesses.

We support the whole student. We welcome them into our community, where they receive the support of staff, volunteers, and donors as they pursue their educational goals and navigate professional and academic relationships. We set them up for success post-graduation. The Grants and Scholarships Program and our Advanced Studies Fund provide financial support in the form of scholarships — because an unexpected expense should not become a financial crisis that prohibits successful graduation. Within this supportive community, students who receive an Oranewood scholarship can focus on school and planning their future career path, instead of how they will pay their rent or whether they can afford groceries.

Mayday! Mayday! Mayday!

See the new original exhibit:

AT THE NIXON LIBRARY

During the Vietnam War, hundreds of American aviators were shot down, imprisoned, tortured, and beaten in North Vietnam. They experienced the harshest conditions imaginable as Prisoners of War.

For as many as eight long years, the Vietnam POWs stayed true to their mission and survived behind bars. They communicated through codes and raps on prison walls. They were remarkably brave and resisted enemy propaganda. And their families knew little of their fates.

See more than 75 unique artifacts from around the country, on display together for the first time. Launch from an aircraft carrier ready room into the skies. Get up close to a recreated, rat-infested prison cell. And relive the national celebration that was their homecoming, including the largest dinner in White House history.

This new, original Nixon Library exhibit is in Honor of Ross Perot.

The Heavenly Home is now open and will change that narrative for many in our community. Our six-bedroom residential care facility allows people to complete their lives with peace and dignity, spending their final days making meaningful memories with loved ones. Providing 24 hour caregiving in coordination with medical hospices, the Heavenly Home offers loving support to those facing their final journey who cannot or choose not to die in their own home.

Naming opportunities are available as well as underwriting opportunities for care delivery, allowing us to admit residents at a reduced rate. We invite you to join us and transform the way live at the end-of-life.

Ending the Generational Cycle of Trauma

Ending the Generational Cycle of Trauma

The Priority Center provides the tools and support needed to break the generational cycle of trauma – including the prevention of child abuse, domestic violence, as well as offering mental health services.

The Priority Center, founded in 1983 as the Child Abuse Prevention Center of Orange County, a single volunteer-based parent-aide program, evolved over 40 years into a large, diverse, and talented organization employing more than 120 professional staff, two-thirds of whom provide direct services to children, and their families, young adults, and adult clients. In 2019, we became The Priority Center. Though our name had changed, the foundation on which we built our legacy did not. Our name, The Priority Center, supports the breadth of our programs and all those we have served for over 40 years and will continue to serve moving forward.

Today's teens are struggling more than ever before; since 2020, the mental health crisis among adolescents has increased exponentially.

The challenges our youth face do not discriminate...every single teen is at risk! At Tilly's Life Center (TLC), we teach teens how to create a positive mindset that enables them to effectively cope with crises, adversity, and tough decisions. Through consistent application, adolescents in the program develop intrinsic motivation, meaningful purpose, and become more independent, proactive, and solution-oriented humans, the very competencies needed to successfully transition into a healthy and happy adulthood.

The adverse mental health effects of the recent pandemic are likely to be long-lasting; investments in accessible mental health services and social-emotional programs are even more critical.

Surrounding our youth with proper support can reverse unhealthy trends and help them now and in the future.

TLC's Mission: To inspire today's youth to reach their full potential as productive, kind, happy, and responsible individuals.

With the help of our generous donors, TLC has already reached more than 16,000 teens in Southern California, but more help is needed! Join us at our upcoming Gala and help our teens not only survive but thrive!

Our Board of Directors came out in full force to support our 2022 Scholarship Awards Gala which was held on May 14th, 2022.

1 Scholarship Awards

YRTTF OC offers scholarships to qualified graduating high school seniors and eligible college students who will attend a community college, 4-year university, or trade school. While the typical scholarship is \$1,000, recipients of exceptional merit may be selected for Founder's Circle scholarships of up to \$2,500. Scholarship funds can be used to pay for:

1. Tuition
2. Housing
3. Supplies such as books, computers and other items used for classes
4. Public transportation
5. Other related school fees

“ I never thought I would be capable of earning a scholarship. It took me by a huge surprise when I found out I won a scholarship from YRTTF OC. You have pushed me even more to pursue my education. I am so excited to see what the future holds for me. Thank you YRTTF OC! ”

2022 Scholarship Recipient/Sunburst Youth Academy

2 Work Study Internships

YRTTF OC provides students with the opportunity to gain professional work experience, learn good work ethics and responsibility while earning a stipend funded by YRTTF OC.

“ The Work Study Internship continues to provide a generous benefit to our seniors as well as our program. Many of our students need to work after school to help support their families which limits the amount of time they can focus on their education in our program. This internship provides our students with the opportunity to earn a stipend at our center so they can balance earning money while working their shift and focusing on their school work in the same space. The work that the interns do - administrative tasks, peer tutoring, lesson plan delivery - is an added benefit for staff. ”

Melissa Arambula

*Family & Community Engagement Coordinator -
Shalimar Teen Center*

3 Enrichment Workshops

Our passionate volunteers and board members are committed to leading workshops on resume building, dressing for success, interviewing techniques, financial literacy and college funding and many other life skills.

“ I am thankful for the workshops I got to participate in because they opened my eyes and I learned a lot of new skills that I will use to reach...achieve my goals. ”
